## ON NEW WRITING

Vertical System and Education  
Board Members.

## REVISED SALARY SCHEDULE

Referred—Some Figures—A Reso-  
lution on Reports—Secretary  
Interrups—No Action.

At a meeting of the Commissioners  
of Education yesterday afternoon quite  
a number of matters were discussed.  
Minister Cooper presided and Dr. C. T.  
Rodgers was secretary as usual.

A new schedule for the salaries of  
teachers of a certain rank was sub-  
mitted by Mr. Gibson, the deputy in-  
spector. This contemplated increase as  
shown by examination results. It was  
estimated that the whole increase for  
the first year would be \$325 over  
the present figure. The total would  
grow quite rapidly, however. One  
group of instructors in the table would  
reach the salary of \$900 per annum on  
the tenth year. Mrs. Dillingham  
thought this was very little and re-  
marked that it was scarcely sufficient  
to warrant such a worker taking a  
wife unto himself. Dr. Rodgers re-  
joined that he did not think a woman  
could support a husband on \$900 a  
year. The entire schedule was referred  
to the committee on teachers. It must  
be disposed of before the legislature  
meets in February next.

Mr. Gibson happened to mention that  
some of the copy books for the new  
vertical writing were not quite what  
they should be. He favored another  
brand. He was an advocate of the  
vertical system and exhibited a letter in  
the new style. Geo. W. Smith de-  
clared it was a poor "business" hand  
and proved the statement at once by  
Mr. Bowen. The latter said he had  
voted alone (before Mr. Smith came  
into the board) against the vertical  
writing. Mr. von Holt failed to see  
anything attractive about the system.  
Mr. Bowen continued that his son was  
being taught to move the sheet with  
the left hand as he filled the lines with  
the right and wanted to know how a  
ledger was to be handled after that  
style. Dr. Rodgers, who evidenced a  
willingness to enlighten the members  
upon all topics, explained that the vir-  
tue of the vertical system chiefly  
claimed by its inventors was the pos-  
ition. The writer sat squarely to the  
desk and had his work directly in  
front.

At odd moments for some time Mr.  
Bowen had been engaged in the pre-  
paration of a resolution which he now  
submitted. It was written in the very  
prettiest Spencerian, such as Mr.  
Smith also uses. This resolution was  
to the effect that while the public had  
a right to know what the Commissio-  
ners were doing, it was best that a report  
such as the members desired to be pub-  
lished should be handed to the papers  
by the secretary. This he explained in  
answer to a question would not exactly  
keep out the newspaper representa-  
tives, but they would hardly care to sit  
through the long meetings when  
they knew Dr. Rodgers would have a  
real nice account of it all written out  
for them.

The secretary interrupted Mr. Bowen  
during the reading of the resolution as  
to "a statement of fact," he said. The  
secretary was reprimanded by the read-  
er. A couple of minutes after the sec-  
retary mildly suggested while Mr.  
Bowen was talking that the preparation  
of the news reports would be new  
work. Nothing was said of the new  
pun, but the secretary was told by Mr.  
Bowen that as an employee of the  
Commissioners he would have to do the  
work they detailed. Dr. Rodgers was  
silent a moment and a moment later  
Mr. Bowen said he was sorry in a way  
and would say so publicly, that he had  
spoken to the secretary so sharply.  
Dr. Rodgers said he had asked per-  
fectly legitimate questions and Mr.  
Bowen admitted that this was correct,  
but that interruptions were an annoy-  
ance. This ended the incident.

Mr. von Holt said that even if this was  
the presence of the reporters might  
at times hamper the Commissioners in  
their work. This business was not at  
all like that of the Board of Health.  
At times matters that were simply "in-  
sane jealousies" were before the Com-  
missioners.

Mr. von Holt said information of a  
disagreeable nature was frequently  
suppressed by the reporters by request.

Minister Cooper was brief. He said  
the theory seemed good enough, but  
he doubted if the plan would work  
satisfactorily in actual practice.

Mr. Bowen again stated that he did  
not lose sight of the rights of the public  
in the premises.

It was suggested by Mr. von Holt  
that the report from the secretary  
might be viewed with suspicion by the  
public.

Mr. Dillingham's only objection to  
the present system was that too often

a wrong impression was given of pending  
matters.

Mr. Smith moved that the resolution  
be laid on the table. Carried.

Some prominent Portuguese had  
asked that their teachers and children  
have a holiday December 1. Minister  
Cooper remarked that it was now the  
rule of the Commissioners to recognize  
only legal holidays.

The Commissioners made some as-  
signments and changes of teachers and  
disposed of quite an amount of routine  
business.

## MONTGOMERY AT LABOR.

Fighting Sailors of the Iredale  
Sent to Prison.

The four sailors of the British bark  
Iredale, charged with assault and bat-  
tery on Steward Thompson, were  
brought up for trial in the Police Court  
yesterday afternoon.

Alex. Seabrook, the ring leader, was  
sentenced to three months' imprison-  
ment at hard labor. Charles Matson,  
Andrew Taylor and Godfrey Miller  
each got two months.

The men all stated on the witness  
stand that they had beaten the steward  
because he refused to give them their  
proper allowance of food.

Judge Wilcox told the men that they  
could have complained to the British  
Consul and therewith gave them the  
sentences as detailed above.

## LAST OF RACING

Final Evening of Present  
Cyclomere Meet.

Speedy Men to Go After Records.  
National Band Engaged for  
Saturday Night-Match.

All the fast riders and the slow ones  
too for that matter, were out on Cyclomere  
track yesterday afternoon. Martin  
was the only one of the fast riders  
who was unable to appear for training.  
Jones and Sylva turned out with  
numerous patches on their arms and  
legs.

King, Jones and Sylva kept to them-  
selves and Jackson to himself. The  
last named did not so by choice, but  
by force of circumstances.

Damon did the fast work of the afternoon  
and surprised even the time-keepers.  
He was pased by Porter and Murray on a tandem.

Damon made the mile in 2:11 1/5. King  
has also done some very fast work and  
the match between them will be a fine battle.

If the weather is favorable Saturday  
night, Jones and Manoa will go for  
track records. These will be extra  
numbers. The old Hawaiian National  
Band will be in attendance. Following  
is the program and entries, and the  
handicaps for tomorrow night:

Mile novice—Open. First heat: Jas.  
Smith, T. Treadaway, A. Robertson, N.  
Jackson, O. Berndt, G. R. Johnstone.

Second heat: T. Lloyd, G. Lewis, M.  
V. Souza, Chas. Ahloe, Joe Santos, J.  
Coves.

Mile open—Professional. D. G. Sylvester,  
John Sylva, 50 yards; Allan Jones, scratch;  
John Sylva, 40 yards; George Angus, 120 yards;  
Geo. Sharrick, scratch.

Mile open—Orientals. First heat:  
F. Coran, Ah Tuck, Ed Kong, J. Watanabe.  
Second heat: Ah Pan, S. Anno, A. K. Ozawa.

Exhibition third mile, flying start—  
Island professionals. D. G. Sylvester,  
paced by Sharrick and Whitman.

Exhibition third mile, flying start—  
Amateur. Henry Giles, pacemaker.

Match race, best two in three heats:  
Fred. Damon, and T. V. King, paced by  
C. Murray and K. B. Porter.

Mile handicap—Amateur. First  
heat: T. V. King, scratch; A. Giles, 40 yards;  
H. Ludlow, 70 yards; N. Jackson, 100 yards.  
Second heat: Fred. Damon, scratch; H. Giles, 60 yards;  
H. E. Walker, 70 yards; F. Williams, 90 yards. M. Rodriguez.

Circuit Court Notes.

J. M. Monksaratt has filed a joinder  
in the demurrer of Ekekela Malani set-  
ting forth that his bill of complaint is  
sufficient in law and equity.

The will of Kaleipua Kanoa has been  
admitted to probate.

A. V. Gear has been granted an ex-  
tension of time to plead his answer or  
demur to the complaint of F. L. Dorchet.

The suit brought by Paul Neumann  
against Costa has been discontinued.  
The trial has been waived in the suit  
brought by the same plaintiff against  
Ohera. The same plaintiff's suit  
against Ohera, et al. has been awarded  
him by default.

Friends at San Francisco.

The Princess Kalulani on arriving  
at San Francisco, was met at the station  
by Mr. C. R. Bishop, Mr. Schaefer  
and others, and taken to the Occidental  
hotel. Mr. Bishop had arranged  
with Major Hooper for her apartments,  
and she found them beautifully deco-  
rated with flowers.

An Optimist.

(Smith of Alameda).

The world is going to the bad,  
The pessimistic say;

But when it goes for Schilling's Best,  
It doesn't go that way:

Then optimism shouts with glee,  
"All's for the Best." That's Schilling's.  
See?

## A PACIFIC PIRATE

Captain of Sophia Sutherland Is  
Under Cover.

alongside of it. It was not long before  
the Captain and the crew were safe  
in the arms of Morpheus. Sorenson  
next supplied a supply of irons which  
he used on the captain and sailors.  
When they came to be laughed at them  
and sailing the ship close inshore, he  
bargained with a number of beach-  
combers always to be found on those  
forlorn shores and soon had the ship  
under weigh again. Now he had  
things all his own way and started out  
to trade with the unsuspecting natives.

"His system of trading, though very  
questionable, was simple and effective.  
It was his practice to invite the chief  
of an island with a small following  
aboard the Albert. He would then get  
the sailors to interest

## NEW MAN IS HERE

Arrival of British Acting Consul General.

### IN GREAT HASTE FROM JAPAN

Young, But of Much Experience—Nearly Twenty Years in the Service—Speaks Japanese.

Her British Majesty's new Acting Consul-General and Commissioner to Hawaii arrived quite unexpectedly yesterday. He came direct from Japan by the S. S. Rio de Janeiro and is temporarily domiciled at the Hawaiian hotel. W. J. Kenny is his name and he is an affable young man of very pleasing personality. Thor. Rain Walker, the present popular acting local representative of the Queen's Government, will doubtless present his successor at the Capitol in a day or two. Mr. Walker will then be able to make the journey abroad which was suspended on account of the sad and untimely demise of Capt. A. G. S. Hawes, who came here from Tahiti to act for Great Britain.

After it was learned that Mr. Cusack-Smith, who had been British consul at Samoa was unavailable for this post, Mr. Kenny was instructed by cable to report here without delay. He said last evening that when his marching orders came he was up-country riding himself of Fumosha fever. He was one of the few white men on the island who fell a victim to the ailment, but fortunately was about recovered when the messages sending him to Hawaii were received. He is now quite well again and with his graceful height and fine figure looks like an athlete.

For nearly twenty years has Mr. Kenny been in the service of his country. For ten years he was registrar and interpreter of the Consular Court at Yokohama. Then he was attached to the consulate at Hakodate and from there was sent to Tainan, Formosa. He speaks Japanese beautifully and has a valet in a kimono who understands scarcely a word of English. The new official says he is pleased to make a change and is certain he will like Hawaii. He cannot say whether he is to be in Hawaii indefinitely or not. His instructions were to come here as "sojourner" Consul-General.

Mr. Kenny was not expected before the 18th by Mr. Walker. He says he packed up on the instant and took the first steamer. If the first impression is to count, Mr. Kenny will be satisfactory to the resident Britons and from his experience in Japan and his knowledge of the men and language of that country will be an exceedingly capable man for Great Britain here at this time.

### A LARGE FUNERAL.

Services Over the Remains of the Late Major C. T. Gulick.

The funeral of the late Maj. Chas. T. Gulick was one of the largest ever seen in Honolulu. The principal down town streets along the line of march were crowded for an hour. There was much sincere mourning. Minister Damon and Government officials were in attendance and many prominent citizens. Business was practically suspended during the services. The floral offerings were in the hundreds and were very beautiful.

At 3:30, Rev. H. H. Parker conducted services at the Alameda house. He read from three Palms and from the gospel of St. Matthew and offered a touching prayer. Professor Berger was at the piano and eight young ladies from Kawaiahae church choir sang two hymns. The Masons then took charge, the procession being formed under the direction of Captain Tripp. It was as follows:

Government Band.  
Delegations from Aloha Atua and Huia Kalaiaina.  
Veteran Firemen.  
Knights Templars.

Members of Hawaiian, Le Progres and Pacific Lodges of Masons.  
Undertaker and Clergyman.

Bearers drawn by four black horses.  
Mourners.  
Friends of deceased and family.  
At the cemetery the Masonic service was carried out with solemn effect.

### HEALANI ELATED.

Club Had a Prosperous Year.  
Election of Officers.

There was a well attended and spirit-filled meeting of the Healani Boat Club last evening. It was an annual gathering of the stockholders. President Cecil Brown was in the chair. The company financial showing made by Treasurer Oat was applauded and received the commendation of Mr. Brown and others. During the past year the debt has been reduced \$1,000 and three new boats at a cost of \$800 have been secured. The election resulted as follows:

President—Cecil Brown.  
Vice-President—Geo. Carter.  
Secretary—Jas. Lloyd.  
Treasurer—Fred B. Oat.  
Auditor—Jas. A. Low.  
Directors—C. H. Cooke, Jr., W. E. Wall, F. W. McChesney, Chas. B. Gray.

It is taken as a matter of course by all interested that Geo. Carter will continue as a captain.

### Still No Hospital.

The Anglican Church Chronicle for November is out. The editor again calls attention to the fact that the Memorial Hospital for incurables and other patients, for which there is pressing need, exists only on paper. Rev. Mackintosh suggests that "If the British find that they are unable to establish this thing themselves, let them

rest content in the honor of originating so noble a scheme; and rouse up the whole community to their help. Let a committee of the ladies of Honolulu once take the matter in hand, and the hospital will be an easy accomplishment in a very short time."

### WELCOMED HOME.

A Hearty Aloha Extended to the Princess Kaiulani.

Princess Kaiulani, accompanied by her father, Hon. A. S. Cleghorn, arrived on the Australia yesterday morning. She is in the very best of health and expresses great joy at being once more in the land of her birth. While the Australia was hauling alongside, she busied herself with trying to pick out among the thousands of people on the Oceanic wharf, people she knew in her childhood.

As a friend stepped up to the Princess while she was standing on the hurricane deck she said: "I am delighted to be home once more."

Princess Kaiulani, after receiving friends aboard the Australia for about

Centrifugals remaining at 3 7-8 for 96.

Granulated prices are also unchanged, viz: 4:81 cts. in New York and in San Francisco 5 3-8.

Beets remain at 8s 5d per cwt.

Sugar Stock advances to \$141 3-4 common; \$114 preferred.

Arrivals—R. P. Rithet, Honolulu, November 2.

Sailings—Forest Queen, Kahului, October 30; Aloha, Honolulu, October 30; Mary Dodge, Kahului, October 31.

## A BUSY SESSION

The Board of Health Handled Many Matters.

### THE REPORT ON DAIRY COWS

Two Were Killed—Protest Filed—Hilo Hospital Corps Organized—Warning on Yellow Fever.

The regular weekly session of the Board of Health was held yesterday afternoon. There were present the following: President W. O. Smith, Drs. Wood, Day, Emerson; Messrs. Reynolds and Kellipio.

The report of the tuberculin test at Waialae Dairy, owned by Paul R. Isenberg, was as follows: 107 cattle (105 cows and 2 bulls) examined; 6 cows condemned and killed. On post mortem examination, all were found with tuberculosis.

The fish Inspector's report for the past two weeks showed 70,560 fish received at the market.

The Board of Medical Examiners reported the successful passing of examination by Dr. E. F. King and recommended the granting of a license. The usual recommendation was moved by the Board.

A letter from the leper settlement was in the nature of a complaint against the manner in which the last freight was landed at Kalauapua by the steamer Mokoli'i people. Goods were destroyed and lost on account of the approaching darkness and the bad weather. The matter was left in the hands of Health Agent Reynolds for investigation.

A vacation of a month was granted Dr. Davidson of Lahaina on account of illness.

A letter from the present Government physician of North Hilo, Dr. Ellis Thompson, announced that he might soon hand in his resignation on account of departure to the States on important matters. He recommended that Dr. Irwin who has already acted for him in his absence and who has proved a very acceptable professional man, be appointed in his place should it be necessary for him to go.

The Board voted to answer that Dr. Irwin's application would be considered and so far as known at present, would be accepted.

Health Agent Reynolds reported a case of diphtheria in Kikihale, discovered by Dr. Howard.

A letter from Dr. Goodhue of the Malulani hospital, Maui, recommended the appointment of Dr. W. F. McConkey to the honorary staff of physicians of that institution. The Board approved of this appointment.

A communication from Dr. Moore of Hilo contained recommendations in regard to sanitary matters in the Rainy City.

Communications from Sheriff Andrews and Judge Hitchcock, expressed regret at not being able to fill the position of business agent of the Hilo hospital. Both recommended L. Turner, an old resident, for the place. Board so voted.

W. L. Moore was appointed Superintendent and Miss Mary Marks, assistant superintendent of the Hilo hospital. The two with Mr. Turner make up the Board of Directors.

President Smith announced the arrival of the Australasian of Miss E. V. Grudd, another nurse for the Hilo hospital. She will go up on the Kinau Friday.

A communication from Paul R. Isenberg contained a protest against the killing of two dairy cows at Waialae, alleged to have been affected with tuberculosis.

A letter from Minister Hatch, dated October 29th, told of the spread of the dread yellow fever in the States and suggested that it might well fit the Board of Health to keep an eye open, particularly since it was reported that freight for Honolulu had been stored in the city of New Orleans.

A letter from Dr. Eldredge announced the receipt of a letter in which his resignation as medical inspector at Yokohama, was accepted. He thanked the Board for the courtesy they had always shown him and reported that he was about to turn over all matters to his successors.

A letter from Dr. Jordan of Hong Kong reported a fairly satisfactory state of affairs in the matter of health in that city. An epidemic of German measles was about the only prevalent disease.

Dr. Jordan also reported that all arrangements had been completed by which emigrants would be required to take the medicinal baths before leaving for these islands.

#### A TOTAL WRECK.

Sugar Laden Commodore on a Coral Reef.

News came by the Australia yesterday that the ship Commodore, which left Honolulu, August 20, sugar laden for New York, was wrecked on the coral reefs surrounding Malden Island and in the south Pacific. The crew was saved. Eight of them were carried by a guano vessel to Launceston, Tasmania.

The Chronicle says that Malden Island, where the Commodore was wrecked, is in latitude 4 deg. 3 min. south, longitude 155 deg. west. It is directly in the course of vessels bound from Honolulu around Cape Horn, but as its position is well known and as fogs are unknown in that part of the globe

it has never been considered a dangerous spot in the ocean. It is 106 miles north-north-east from Starbuck Island and about 875 miles northwest of Tahiti. It is a low coral island almost circular in form and about four miles in diameter. No part of it is more than thirty feet above sea level and reefs exposed only at low tide extend far out from its shores.

The cargo of the Commodore was insured for \$250,000 and an insurance of \$17,000 was placed on the charter price. The vessel was also insured for a good amount and all the policies were issued by local agents. The vessel was owned by San Francisco capitalists, among whom were Captain W. A. Boone, Geo. Middlemass, Charles Hugg, A. B. Patric, Isadore Burns, Captain Collins, and Captain James Davidson. The owners valued the ship at \$50,000.

#### Noa Must Hang.

A petition from Molokai in behalf of Noa, the murderer condemned to be hanged, was before the Cabinet Monday morning. The request was simply that the sentence be commuted to imprisonment for life. No reasons were urged. The President and his advisors practically decided that so far as this petition was concerned there would be no interference with the judgment of the court.

## RAIN UP IN HILO

Boom in Real Estate Still Going On.

More Coffee Converts—May be an Addition to the Fleet.

#### (Special Correspondence).

Hilo, Hawaii, November 8.—Hilo and vicinity just now, are enjoying a much needed rain, or rather it was needed when it began, a week or ten days ago. Enough has fallen in the intervals to dampen the ardor of the most enthusiastic tenderfoot. Still there is no mud except where, in the march of improvements, eighteen inches of the top dressing on Waianaeue street has been taken off in grading.

Among the arrivals of the week are C. S. Desky, the real estate man and R. G. Gibbs, a retired banker of the Eastern States. It is said that Mr. Gibbs came Hilowards with the view of starting a bank, but Queen Coffee has captured him.

Since his arrival, Mr. Desky has purchased a strip between King and Church streets through which the Bridge street extension will cut. He will also improve Reed's Island.

Aug. Gramberg, manager of the Huamula sheep station came down from his ranch yesterday and reported the first rain for 15 months. Mr. Gramberg brought with him some luscious golden russet apples grown at his place. This refutes the time worn fable that this class of fruit cannot be grown on the Islands.

D. H. Hitchcock is in town from his Olaa plantation somewhat improved in health. He was called to Hilo by the sudden and for a short time serious illness of his daughter, Mrs. A. B. Leobenstein.

J. G. Rothwell, manager of the W. C. Peacock & Co., Ltd., has been in Hilo several days looking over the interest of the firm. During his stay he completed negotiations for 30 year lease of the property, corner of Waianaeue and Bridge. It is at this place that the firm may erect a handsome brick block. The plans have been drawn and estimates will be asked in the near future.

W. H. Smith, retiring editor of the Hawaii Herald, will probably return to his Olaa coffee plantation though his movements are undecided.

V. M. Fulcher has severed his connection with Hackfeld & Co as manager of their Olaa store. He will devote his entire time to his coffee plantation, located about four miles from Mountain View.

E. R. Fulson, an old timer, and years ago bookkeeper at Pepeekeo Sugar Plantation has been here several months. He will go to Honolulu for a few weeks before returning to his home in Los Angeles. Mr. Fulson first came to the Islands in 1868.

The barkentine Skagit, Captain Robins, sailed Sunday 7th in ballast for Port Townsend.

The Lyman D. Foster has been chartered at Blakely to load 1,000,000 feet of lumber for H. Hackfeld & Co., Hilo.

Bark Annie Johnson is in the harbor discharging cargo of general merchandise. She was obliged to leave several tons of freight on the dock in San Francisco on account of lack of space.

Among that left behind was the stock for the Wall, Nichols Co., new stationery store to be opened in the new Masonic Building.

It is rumored here that the Santiago is to be laid up for repairs and her place temporarily taken by a schooner in the Mattson line.

Another rumor is that Welch & Co. will put two vessels in the San Francisco-Hilo line next year. One of them, it is said, will be the Andrew Welch, Drew master.

C. S. Desky who returned to Honolulu on the Kinau Tuesday, has the following to report on the Rainy City and suburbs:

"Waianaeue street has been torn up for the purpose of widening it. When finished, Waianaeue will be a very fine business street.

"Workmen are excavating for a building for Theo. H. Davies & Co.

"F. M. Wakefield who is interested in some buildings soon to be put in Hilo, came down on the Kinau to see about plans for the same.

"W. C. Peacock & Co. will put up a handsome brick building in Hilo. Mr. Rothwell has been up seeing about it.

"Eight fine residences are in process of construction in Punaue. C. C. Kennedy has two cottages; Mrs. Given, three; E. E. Richards, one that will

cost in the neighborhood of \$6,000; J. Bashaw an 8-room house and lumber is now on the ground for Mrs. Grote's place.

"Messrs. W. H. Crozier, J. Rowlands and C. S. Bradford have purchased lots in Villa Franca, the addition to Waia-

#### HOW TO CURE BILIOUS COLIC.

I suffered for weeks with colic and pains in my stomach, caused by biliousness, and had to take medicine all the while until I used Chamberlain's Colic, Cholera and Diarrhoea Remedy which cured me. I have since recommended it to a good many people. MRS. F. BUTLER, Fairhaven, Conn. Persons who are subject to bilious colic can ward off the attack by taking this remedy as soon as the first symptoms appear. Sold by all druggists and dealers, Benson, Smith & Co., agents for Hawaiian Islands.

JIMMY MICHAEL, THE ONE HOUR CHAMPION.

Jimmy Michael, the wonderful cyclist who recently covered 31 miles and 1,450 yards in one hour, is a midget in size but a Hercules in strength and endurance. During his races he nonchalantly chews a toothpick.

EDDED TUESDAYS AND FRIDAYS

W. N. ARMSTRONG, EDITOR.

FRIDAY NOVEMBER 12, 1897

**PULLMAN'S FATE.**

George H. Pullman, a business man of the highest order, a millionaire and a philanthropist to some extent, died, leaving unsolved one of the ugly social problems that confront the rich men of America. As he gathered wealth his natural instinct, as a father, made him ardently hope that his sons would become worthy successors to his wealth and reputation and enlarge the work he has so successfully carried on. He was bitterly disappointed and in his last will so declares and cuts his sons out of great wealth and position. The public will never know the details of that protracted domestic misery which forced him finally to this most humiliating act.

Prominent and "successful" as the world goes, he was compelled before his hand grew cold, to say to the world substantially this:

"In the struggle for position and wealth, I am one of the most successful men of America. I have established a great industry. I have founded a model city. But in that which is nearest to my heart, in that which would make my latter days full of pleasure and comfort, is seeing my own flesh and blood succeed me, with the accumulations of my wealth and my experience. I have utterly failed, and go to my grave in sorrow."

Mr. Pullman was, like most of the rich men of America, the product of the flush times. These men in the race for wealth flung aside all things that hinder the mad racing of the chariots. The careful and patient training of their sons to an understanding of the burden and responsibility of wealth, is itself a duty and work which interferes with the gathering in of money. So far as general estimates go, the large majority of rich men's sons in America become indifferent citizens or "go to the bad." Any one who has the chance to meet them in the large cities, soon discovers how little the rich men enjoy life, because of the serious outlook for their children. As money getting is their own business, they naturally urge their sons to habits of industry and of money making. But the boys are perfectly conscious of the fact that money enough has already been made for them, and do not relish the disagreeable features of a purely business life, with its monotony, selfishness and intellectual narrowness. Fathers and sons stand on a false basis and in a false relation.

A father who has never educated himself to the highest uses of wealth, does not know how to educate his sons to these uses. The great missionary work in science, in art, in education, in philanthropy, he has neglected, and he can neither teach by example or precept. Even Mr. Pullman was a one-sided philanthropist. He made the environment of the men he employed better than it was, but he failed to give or secure "homes" for them, and in the meantime accumulated wealth, without patiently educating his sons how to administer it wisely.

The good pastors of the old-times, when in their pulpits, drew lurid pictures of the eternal sufferings of the unrepentant, strapped to blazing gridirons, and then came down from the pulpits, and showed their practical skepticism of the doctrine, by dining and cracking jokes with those who, at any moment, might be seized and carried down by torturing devils.

These rich men, in like manner, solemnly admonish their children that all treasure should be laid up in Heaven, and then proceed

to make enormous earthly investments; but not in trust for the higher or Heavenly use. The children left uneducated in the higher uses and becoming skeptical about the sincerity of the doctrine, yield quickly to the innumerable temptations which wealth creates.

Colonel Ingersoll said: "Men are not yet educated to the best uses of money. Rum and vice destroy the fortunes in America. Only a few are saved."

One night, going out of Chicago, a long, lean man, with a wart on his cheek, came into the depot. He paid George M. Pullman 50 cents, and half a berth was assigned him. Then he took off his coat and vest and hung them up, and they fitted the peg about as well as they fitted him. Then he kicked off his boots, turned into the berth, and was sleeping like a healthy baby before the car left the depot. Along came another passenger and paid his 50 cents. In two minutes he was back at George Pullman.

"There's a man in that berth of mine," said he hotly, "and he's about ten feet high. How am I going to sleep there, I'd like to know? Go and look at him."

In went Pullman—mad, too. The tall, tank man's knees were under his chin, his arms were stretched across the bed and his feet were stored comfortably—for him. Pullman shook him until he awoke and then told him if he wanted the whole berth he would have to pay \$1.

"My dear sir," said the tall man, "a contract is a contract. I have paid you 50 cents for half this berth, and, as you see, I'm occupying it. There's the other half," pointing to a strip about six inches wide. "Sell that and don't disturb me again." And, so saying, the man with a wart on his face went to sleep again. He was Abraham Lincoln.

**CONNECTICUT AND HAWAII.**

The Hartford Courant, (Senator Hawley's paper), complains of the miserly appropriation by the Connecticut legislature of the sum of \$1,000 only for the expenses of the State's new sewage commission, and it says: "A municipality in the Hawaiian Islands has set the example of fetching a sanitary expert nearly half way round the world to supervise certain needed work."

The Courant, in selecting Hawaii as a model of municipal generosity, justified its pre-eminence as a leading journal of New England. Besides, Connecticut and Hawaii have a joint and several "glorious past." Down the corridors of time they will dance together, the brown hand of the fair Hawaiian in the grip of the white fist of the Inventor of Notions.

It was a citizen of Connecticut who cared for the Kanaka boy Obookiah, in 1810, and it was in Cornwall of that State, he was educated. The inspiration of his story created the mission to these Islands. For a moment the Yankee forgot the patent mouse traps, and looking beyond the sea, set up a trap to catch the Evil One. The inspiration given by Obookiah to the mission should have caused his name to be adopted in every missionary family on the Islands, and every other male inhabitant with missionary antecedents, should bear the name of Obookiah. Probably modesty only forbade it.

Yale men, with a genuine Connecticut environment, were the first missionaries to these Islands in 1819. Fate flung Hawaii into the air, and she came down a good "catch" into the arms of the Nutmeg State.

As the Courant people belong to the Yale contingent, we tell them that Connecticut, through Yale, has planted the banner of Christian civilization on these imperial mountain tops, and a conspicuous "Y" is always in the central field of its graceful folds.

Many and rather hysterical attempts have been made by other colleges to tear it out and substitute other humiliating letters. It is still there. Yale dominates on the Bench of the Hawaiian Supreme Court. She dominates in the rank of local historians and in the Advertiser and Gazette, Yale weekly and devoutly stands by the staff

and the flag on the imperial mountains and aids in keeping off the Asiatic horde who are said to be trying to cut the halyards. In moments of forgetfulness, Yale recognizes the inestimable value of the work of other American institutions of learning, but she claims the prestige for herself and Connecticut, of having "discovered" through Obookiah, this heathen land, and is grateful to Providence that a heathen land was created for the purpose of this discovery.

It was therefore only with a profound knowledge of the almost invisible links in the chain of events, that the Courant selected Hawaii as an example of municipal enterprise. It presents one of the most remarkable and beautiful "sequences of history," that the good people of Connecticut in 1819 flung their bread a thousand leagues upon the Pacific ocean, and in 1897 it comes back in a return loaf of a wholesome example in sanitary enterprise.

Should the American Senate find difficulty in adjusting the political status of Hawaii after annexation, we suggest that she be made an internal part of Old Saybrook, every acre of which we know so well, and that the remains of Kamehameha I, if they can be found, be placed beside those of Lady Fenwick.

Hawaii throws across the sea and over the shoulders of the Courant, a lei of her brilliant flowers. Aloha nui.

**KINDNESS TO ANIMALS.**

The organization of a "Band of Mercy" by the Kona teachers, the purpose of which is to teach children kindness to dumb animals, arouses the hearty commendation of every humane person in the Islands. Kindness is naturally inherent in most people, yet it is strangely lacking or undeveloped in many, and at all times it is to a certain extent a matter of training. The daily sight by children of little acts of cruelty, with apparently few attempts made to prevent them, is largely responsible for the extreme cases, for which just punishment is meted out in the Police Court.

Legislative acts, and their rigid enforcement by the Police and the officers of "humane" societies, prevent in many cases the open practice of cruelty. But Police Courts do not teach kindness as a principle, neither do they prevent the unconscious cruelty to animals of which some of the most intelligent people are guilty. Probably these Islands are no worse in this respect than most communities are, but the "Band of Mercy" can have an abundance of illustrations if it wishes to teach kindness by that method.

A few days since a respectable young man wished to lean his bicycle against the curbing on King street. A dog was lying in the gutter and without hesitation the young man kicked the animal from the spot which he had selected as the most convenient for his wheel. Undoubtedly the dog was a nuisance and should not have been allowed to roam the streets at will. Two witnesses remonstrated with the young man. The first said: "Don't kick the dog, he might bite you." The second said: "Don't kick the dog, it hurts the dog." We trust the "Band of Mercy" will not confine its membership and operations to the Kona district.

Since the remarkable success of growing sisal hemp in the Bermudas was made under the intelligent supervision of Sir Ambrose Shea, the governor, the people of other lands are following the business. The plant is now cultivated in Florida, but it does not do well above the middle belt of that country over for its cure of croup. Mr. Johnson says this is the best-selling cough medicine they handle, and that it gives splendid satisfaction in all cases. Sold by all druggists and dealers, Benson, Smith & Co., agents for Hawaiian Islands.

proved successful. This is probably due to planting in uncongenial soil. The plant requires little water and does best on coral land. The absorption of the energy of the Islands in the cultivation of cane, prevents, so far, a thorough and exhaustive experiment in ascertaining its value. Everyone admits the pressing need of diversified industries. The political solution justifies the Government in paying as much attention to such industries as it does to the educational system. Mr. A. H. Turner, we hear, has been making a study of the business, as it is described in many publications, and purposes to enlist home capital in the gradual cultivation of a hundred acres in the Ewa district. There are now, at hand, about 100,000 plants, with which an adequate experimental farm may be started. In this, as in all new industries, patience, intelligence and staying qualities are necessary to success. On these depend the cost of experience.

**NOTES ON ANNEXATION**

The Philadelphia Call cites Congressman Maguire's argument against union, because with it he says the Asiatics living in Hawaii will have the legal right to travel and reside in any part of the United States. It says the argument is an ingenious one, but contingencies of this kind can be readily met with appropriate legislation.

The N. Y. Journal, alluding to the report that Hawaii has asked the aid of England in the disposition of the Hawaiian-Japanese affair, says that the Japanese should trust to the nation that introduced them into the family of civilized countries, rather than seek aid from the British nation that has kept them in a subordinate position, and denied them for many years, the right to govern their our territory.

The Washington Post claims to have abundant evidence of the purpose of the Princess Kaiulani "to work up a boom to obtain the Hawaiian Throne." It says that at present, however, both the ex-Queen and the Princess will not quarrel over the affair, and that nothing will be done until the annexation matter is settled.

The Philadelphia Press says that Hawaii has won a diplomatic victory over Japan, as the latter nation has consented to arbitrate all of the points involved in the dispute regarding immigration.

The St. Louis Observer relates the action of the Hawaiian Senate in ratifying the treaty, but expresses no opinion regarding annexation. It believes that "the father of lies has been let loose," in the statement that veteran soldiers from Japan are being steadily introduced into Hawaii.

The Chicago Standard alludes to the same report that Japan is introducing soldiers into the Islands in the disguise of laborers, and says there is no telling what Japan will do.

The New Britain, Ct., Herald says many thoughtful persons are opposed to annexation, but believes that "the so-called conservative advisers will be swept aside and that the next session of the Senate will witness the ratification of the treaty." It states in discussing the financial resources of the Government that, "most of the bonds are held by natives."

The Washington Post replies to the statement made in the North American Review that all the Chinese and Japanese born in Hawaii will become, under the Constitution of the United States, American citizens. It says, "we do not know that any body is proposing to admit Hawaii" as a State. Some form of territorial government will be developed. But when, if ever, the time arrives for the admission of Hawaii (as a State) there will be no trouble on account of the Asiatics. The Constitution permits States to prescribe various qualifications for suffrage. And who knows that the young Japanese in Hawaii will not become good, patriotic, well educated American citizens, after a few decades of prosperous life under the Stars and Stripes?"

The N. Y. Commercial Advertiser quotes the statement of Professor MacCauley, for the last seven years at the head of the Unitarian College in Japan, that "the stories of Japanese occupation and colonization by disguised soldiers are circulated by the annexationists in order to scare Uncle Sam into prompt action."

The Minneapolis Journal gives an abstract of Senator Davis' lecture before the University law students of that place. The Senator gave his reasons with much force, for annexation. Regarding the fate of treaties, in the event of annexation, he said that, "rights which are vested are preserved upon principles of equity and morality, but the promissory portions of all treaties become void."

The Worcester Spy, Mass., says that Senator Morgan's speech to the natives shows that he told them that there might be a Hawaiian president of the United States, "not some possible descendant of a missionary from New England, but a black president, a Polynesian, a Kanaka, the possible great grandson of a savage. We do not oppose annexation, but we do not agree with the Senator."

**Suit Is Delayed.**  
The case of the Japanese laborers who are alleged to have beaten them out of their wages, is resting in abeyance. The Japs who has the matter in his hands, is very ill and can do nothing. As soon as he is well enough the Japs will make a move toward getting the money they say due them.

**Opium Cases.**

In the Police Court yesterday morning, the case of Bon Chung, charged with unlawful possession of opium, was nolle prosse'd. Ah Young was fined \$50 and costs on the same charge.

**SPEAKS WITH CARE****Notes Gathered on Visits to Various Plantations.**

**Warning Against the Castor Plant.**  
**The Papaya as a Substitute—Will Furnish Shade—Sunflowers.**

Allan Herbert gives the following additional facts on coffee and its culture:

That the coffee industry on these Islands will be a success there cannot be a doubt, but it is folly to overestimate the advantages to be derived or to underestimate the difficulties that lie along the way.

What has been written about profit to be derived from small coffee ventures is incomplete and some of it very misleading. We cannot help but believe that these facts must be patent to the Government.

On our tour of inspection we noticed with regret that the castor plant is being used as a shade for the coffee trees. The castor plant was introduced into Southern California some seven years ago but it did not pay. It has now become with the people there almost as bad a pest as the lantana is with us here.

Plant the beautiful and healthful papaya instead. They will grow up in a very few months and give a better shade than the castor plant. They will also give food for both man and beast. Did you ever see blight or insects on a papaya tree? As mentioned above they will grow up in a very short time and the young coffee trees that are struggling along can be tied to their sturdy stalks and thereby receive the protection they need.

Send your address to "A. H." Kalhi, and you will receive through the mail a package of Russian sunflower seeds, free of charge. They will give health and pleasure to yourself and neighbors. We grow them by the acre for poultry feed.

**METEORIC DISPLAY.****Earth Due to Pass Through Showers Next Week.**

Early next week, unless the astronomers are wrong in their calculations, the earth should pass through an extraordinary show of meteors. Every 33 years the display of November meteors is more magnificent than usual.

The present month is the November of the 33 year period. Professor Garrett P. Serviss, the astronomer, says in an interview in a New York paper: "The great swarm of the November meteors is drawing rapidly near the point where, once in every thirty-three years, it meets the earth, and astronomers are on the qui vive for the first outposts which, dashing in a blaze of fire into the atmosphere, will announce the arrival of the strange horde of celestial wanderers."

"Twice already within this century these meteors have astonished the world by their portentous appearance, the first occasion being the celebrated star shower of 1833. The second appearance was in 1866.

"There is a chance that a memorable display will be witnessed on the mornings of November 14th, 15th and 16th. The opening exhibition of the meteors this year will be followed. If previous experiments can be trusted as a basis for prediction, by a still more brilliant display in November, 1898, and by the arrival of the central swarm in November, 1899."

**In Washington.**

Letters received here concerning Senator Morgan are to the effect that he has gone direct to Washington from Southern California. The friend of Hawaii has entirely recovered from an illness which attacked him soon after his arrival on the Coast. He cannot visit Southern cities at this time on account of the yellow fever quarantine.

**Sleep**

Induced by the use of coca, opiate or narcotic compounds is bad, decidedly bad. It undermines the health and shatters the constitution and the patient is steadily growing into a worse condition—often resulting in the terrible slavery and misery of the cocaine and opium habit. Sleep induced by the use of Hood's Sarsaparilla may not come as quickly, but it comes more surely, permanently and is

**Sweet**

And refreshing because it is realized through nature's great restoring and rejuvenating channel—purified, vitalized and enriched blood. This feeds the nerves with life-giving energy and builds up the system and constitution from the very foundation of all health and life—the blood—pure, rich, red blood.

**Refreshing**

"I was generally run down last spring, appetite was poor and I could not sleep. Hood's Sarsaparilla built me right up, gave good appetite and I was soon able to get a good night's rest." G. F. WHITNEY, Merchant, Yeomans St., Ionia, Michigan.

**Hood's Sarsaparilla**

Is the One True Blood Purifier. All druggists, \$1. Hood's Pills cure live life, easy to take, 25 cents. HOBRON DRUG COMPANY, Wholesale Agents.

## THE Y.H.I. EVENING

Popular Society Gives an Entertainment.

Musical and Literary—Addresses by Messrs. Wilcox, Smith and Dr. Huddy—Ladies Assist.

It goes without saying that the young men of the Y. H. I. were extremely pleased last night when they found such a hearty response to the invitations they sent out to friends to be present at the installation of the officers elected to serve during the ensuing year. The hall prettily decorated as it was with flags and a profusion of tropical greens, formed a most attractive place for the people who crowded the place to the very doors.

Promptly at 8 o'clock, and after the Glee club had sung "Malka Walpo," Chas. Wilcox, the retiring president, stepped upon the fern surrounded platform and began his address, while the new officers stood in a row to his right. Mr. Wilcox dwelt upon the main aim of the Y. H. I. as being the assistance of those of its members in trouble. It was a society wherein each one would receive the same consideration and all were expected to labor toward one end. Morality was an essential. Before a new member could be admitted his moral character must be vouchsafed for. Mr. Wilcox then dwelt upon the financial standing of the Institute, showing receipts to the amount of \$1,090 and expenditures such as to leave a balance on hand of \$347 during the time from 1894 to 1897. This was certainly a good showing. The investment branch of the society, recently instituted, had already taken in \$747.

In a few appropriate words, the retiring president introduced Dr. G. H. Huddy, the incoming head of the Institute, who addressed the audience briefly, asking the members of the Y. H. I. for their help in the duties that lay before him.

The chairman of the evening then introduced Henry Smith who gave an address on the "Benefits of Association." Mr. Smith handled his subject in a masterly manner, putting forth what really constitutes the foundation of the society. Help for the ones in trouble, meeting and exchanging ideas, coming together for a quiet evening with clean literature to peruse and innocent games to while away the hours free from the daily toll and other kindred acts, constitute the benefits.

In closing his remarks Mr. Smith referred to the return of the beloved Princess Kaiulani among her people, expressing the hope and giving the assurance that she would turn her talents gained by years of education in foreign lands, towards the help of those who looked up to her. In her station of life, incalculable was the good she could accomplish.

An excellent solo by Jas. W. L. McGuire, with piano accompaniment by Mrs. J. L. Holt, was followed by a mandolin and guitar duet by Messrs. Hennessey and Kaa. An encore enthusiastic was responded to by Hennessey taking the mandolin and Kaa the guitar.

"Whispering Hope," a duet by Misses Rose Parker and E. Kahale was very simply and sweetly given, the soprano of the latter and alto of the former blending perfectly. The quality found in Hawaiian voices was all there.

Mrs. J. L. Holt's piano selection from "Ben-Hur" was followed by a solo and encore on the part of Miss Kanoho, a young Hawaiian girl who has been under the training of Professor Berger and who gives promise of being an excellent singer. She was best in her Hawaiian selection later on.

J. M. Poepoe's "Legend of the Hawaiian Jonah" given in Hawaiian, was the cause of laughter from the beginning to the end. His clever way of putting things, his play on words and his wit, all combined to give those who understood the Hawaiian language, a very noticeable tickling sensation in the sides.

Another mandolin and guitar duet by Hennessey and Kaa was heartily encoraged. The musicians responded with "Rastus on Parade." A song by the Glee Club and an encore closed the evening's program. Then came refreshments and the floor was cleared for dancing, which lasted about an hour.

The officers installed last night were: President, Dr. G. H. Huddy; vice-president, G. L. Desha; treasurer, Chas. Wilcox; secretary, Isaac Sherwood; financial secretary, James L. Holt; marshal, James Keola.

### A Short Session.

Senator Cecil Brown said yesterday that he believed the next session of the Legislature would be a very brief one. His idea was that there would be little to do beyond the enactment of appropriation bills.

It has been suggested that if annexation is accomplished before February that the Legislature would not sit. A member of the Government asked yesterday in regard to this said all would depend on action at Washington.

### Lycurgus and Sans Souci.

In regard to the rumor that he is soon to relinquish Sans Souci and go to Japan to engage in business, George Lycurgus says: I will give up the place at the beach when my lease expires. This will be in May, next. As to my future, I have said nothing, because I have decided nothing. At present, I have no idea what I will do. I may remain here and I may leave. My interests here are quite large and I like Honolulu.

### Royalty Chattels.

Prince David, as agent of Dowager Queen Kapolani has asked the Government for leave to examine the royalty chattels soon to be sold at auction. The purpose is to learn if any of the goods were the personal property of

Kalakaua. It is not anticipated that there will be any friction, as the Government long since made a careful inventory of what is to be disposed of by auction.

The goods now offered are left from the lot out of which the late Kate Field and others bought a couple of years ago. The sale then ceased because the prices were too small. Originally all the goods were examined by agents of the Government and representatives of the Kalakaua estate. All questions of private ownership were then settled.

### "JACK" THOMPSON.

Young Man Who Has Long Both-ered the City Police.

Harry Roberts made the accompanying excellent likeness of the notorious "Jack" Thompson. The face was copied from a group picture of Company B made by Williams in 1895. Thompson was a good soldier, if bad in some other ways. He was at one

"JACK" THOMPSON.

time in the Regulars and he knew the tactics from end to end. There was a commission in sight for him in till the boys concluded he was getting too disreputable. Thompson could be pleasant and at one time had many friends. Even after considerable misbehavior he was favored by some of his old comrades.

Thompson is a moulder by trade and an excellent workman, but he cared for nothing like steady toll. About the only thing he did during the past four years was to drive hack for a short time. He has served a term for vagrancy. While Thompson has been accused of many depredations the police have caught up with him for the first time. He was captured a few nights ago in the act of housebreaking.

### GONE DAFT.

Sam Stone Sees Spooks in Police Station Cells.

Sam Stone, a half white, is in jail and will likely be sent to the insane asylum. It was thought at first that Stone had been setting himself up as a kahuna as some of his practices tended in that direction. However, later developments seem to show that he is demented. Stone was allowed the freedom of the police station yard on Wednesday and then part of Thursday morning.

It was noticed yesterday that Stone acted strangely and he was locked in a cell. One of the officers went to the window and found Stone shaking like an aspen leaf. Asked what the matter was, he replied that the place was full of devils. Suddenly he pointed at the officer and said: "You are one" and another officer passed by, shouted: "There's another." He then crouched down so that he could not see the men and there continued to shake. The officers left. There seems to be no doubt that Stone is crazy.

At one time he had a quite promising future before him. He was bright and served on both the Custom House and police forces.

### ARE PRACTICING.

Teams Getting Into Shape for Further Football Games.

The football teams were all out again for practice yesterday afternoon and they mean business. The Regiment boys are determined that they shall not be beaten in such a manner as they were by the Punahoa, if they are beaten at all. If they had a little more confidence in themselves and resorted to a little swifter play, they could do a lot better, for they have the strength and the weight.

The Town team is handicapped by the loss of Angus and Chillingworth, but they are putting new players into the field and these promise to do good work. Schermerhorn is the latest addition to the list.

The Punahoa are confident of their ability to beat the Town team but the latter say that "there are others" in the field. The backers of the students in town are giving odds on their favorites. The game between these two teams will undoubtedly be the most interesting one of the season and will be looked forward to with pleasure by the enthusiasts.

### Research Club.

The program for the meeting of the Young Men's Research club at Rev. Dr. Birnie's tonight will include the following:

Experiences in the Zulu war of 1879, W. J. Cranwell.

Athletics of the past season, John Waterhouse.

Commercial Development of the Pacific, John T. Debolt.

The Eastern Question, Judge de la Vergne.

Review of Municipal Governments, Mr. Percy Pond.

The music will be arranged by Mr. Fletcher.

Mr. N. N. Osburn, well known at Woodstock, Mich., was troubled with a lame back. He was persuaded to use Chamberlain's Pain Balm. It gave him relief in one night. This remedy is also famous for its cures of rheumatism. For sale by all druggists and dealers, Benson, Smith & Co., agents for Hawaiian Islands.

## FIXING FOR VIEW

### Arranging Kilohana Art League Exhibits.

Hanging Committee at Work. Water Colors and Oil Paintings—Carving—A Loan.

About the usual number of contributions to the fall exhibition of the Kilohana Art League have been received and the Hanging Committee has about completed its work. Among the works of art are:

A fine contribution of water colors by Mrs. Kelly. The most important piece is undoubtedly the large painting of a group of native flower girls seated on a matting out on the sidewalk. They are patiently waiting for customers and wear about their necks, leis of bright hues as an advertisement of their business.

Philip Dodge has a number of water colors of subjects Hawaiian. Miss Bessie French's water lily study showing the pond at Punahoa, is an attractive bit.

Miss Bessie Afong has a pastel of guavas and A. A. Macurda a landscape in water colors. Mrs. Weedon exhibits a number of typical water color studies of island plants. They are distinctively botanical. C. W. Dickey has a historical bit done in Lahaina.

Mrs. Da Costa exhibits a pleasing canvas in oils, her subject being a number of night blooming cereus flowers. There are very good qualities in the coloring.

Howard Hitchcock has quite a large exhibit in oils. The best work seems to be in the marines and of these a study in the grays and blues called "Symphony" seems to be the best products of his brush. Fishermen on the beach, hauling in a seine, is another good piece. A number of studies in Puna, a large study of a coffee plantation and other work, completes the list of Mr. Hitchcock's productions.

Miss Nolte will have a group of pieces in China painting. Two new contributors in this line, Mrs. Focke and Miss Woorees will also exhibit. Miss Woorees will have some pieces in wood carving as well.

Mrs. Wm. Graham will exhibit a number of pieces in wood and leather burning as well as wood carving.

On the walls of the stage may be seen a number of sketches done by C. Wutke on his way from Munich, Germany to this country. They are rich, glowing subjects and create a most pleasing and lasting effect. Among the scenes shown are Yosemite Valley and the Cliff House, California. The pieces are not a part of the regular exhibition but were loaned to the Art League until November 24th, the day before the artist leaves for his home.

Mr. Wutke will go to the Volcano on the Kinau this morning and while there will make a number of sketches.

At a meeting of the Art League held yesterday afternoon four new members were elected. Other business was postponed until the next regular meeting.

Invitations to the "First View" of the Art League, to be held Monday night, November 15th, will be issued to the members today. Each one will be allowed to bring one friend.

### MILE A DAY.

Hard Work of a City Man's Friend on the Way to Klondike.

Geo. L. Ritman who is now in Fruitville, Alameda Co., California, wrote to a friend in Honolulu by the last steamer from the Coast relating the trials and tribulations of his brother while on his way to the Klondike. Mr. Ritman writes as follows:

"I am here yet and have not started for Alaska. However, I have a brother who started up there. I have just heard from him. He got over the worst part of the journey and then a carbuncle came on the back of his neck. He had to sell his outfit and go back to get into a hospital where he had to remain two weeks. The carbuncle was brought on by the hard work of carrying his packs. He had twelve in all and each weighed 100 pounds. It took him 30 days to travel 30 miles so he averaged one mile a day, carrying 1,200 pounds a day. To do that, he had to carry one pack a mile and then go back after another. He must have walked 24 miles a day and went 720 miles to make 30. Now I think he will be some time before I want gold bad enough to do that."

### Bicycle Patrol.

Marshal Brown has organized a police bicycle corps. He selects two men from each watch, making a detail of six in all. Henry Espinda and acting Lieutenant Gardner are already on duty. Nigel Jackson is to have a responsible position.

Two members of the wheel squad will be under orders at the station constantly. This will do away with the pair of mounted patrolmen on duty.

### Wanted Gold Fish.

An Italian boy went down to the fishmarket late yesterday afternoon and became attracted by the color of some gold fishes in a tin at the stalls of one of the Chinamen. So intent was he upon the occupation of getting one of these out of the tin that he did not spy the man who came up behind him, gently took hold of his collar and removed him to the police station. There he was told not to do it again and was allowed to go on his way.

### Dexter and Crozier.

Ruby Dexter writes from Auckland that he will try this season for the milie championship. He says he is in better shape and riding in better form and is stronger than ever and he be-

lieves he will make the present records look sick. The wheel business is good with Dexter and Crozier. The latter is now a "Cash" or professional rider and Ruby believes that he will do well.

### Hagey in New Zealand.

Messrs. Cowan and Kirkpatrick have just effected a sale of Hagey cure rights in New Zealand for \$25,000. They will now go on from Auckland to Australia and after finishing in the land of the Kangaroo will depart for South Africa. Lem Ables is to remain in New Zealand for the present, being a stockholder in the new company.

### Senator Pettigrew.

Senator Pettigrew and ex-Senator Dubois were about the city all of yesterday busy in sightseeing. They inspected various public buildings and had a long drive. Mr. J. O. Carter was one of the callers at Snow cottage. In the evening the visitors were the guests at a dinner at the home of Paul Neumann.

### MOST PERFECT MADE.

A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant.

In all the great Hotels, the leading Clubs and the homes, Dr. Price's Cream Baking Powder holds its supremacy

### 40 Years the Standard.

### LEWIS & CO., Agents, Honolulu, H. I.

place at once if the American people could vote upon the question.

Dan Sharick, the wheel champion, has raced but little in the States, where he will now be a star. Most of his work has been done in British Columbia. Tacoma is his home.

Oscar White's resignation as Captain of Company B is to be forwarded to the Commander-in-Chief. Both Mr. White and Henry Giles will enlist in Captain Dodge's Sharpshooters.

The Japan Mail says that it is rumored that some friction has occurred between Count Okuma and the Japanese Cabinet, which may shortly lead to some changes in the Government. Dr. Edgar of Oakland was a visitor at the meeting of the Board of Health yesterday afternoon. With Dr. Emerson, he will pay a visit to the leper receiving station in Kalihi, Saturday morning.

Judge Hartwell left for San Francisco on the Rio de Janeiro Wednesday morning. He goes on a flying business trip to Boston and expects to be back in Honolulu during the latter part of December.

New has been received of the engagement of Miss Berg, a sister of R. Berg of Kahului and A. Berg of Bishop's bank, to R. C. Montague, well known here. Mr. Montague has a fine position in Philadelphia.

W. J. Forbes, who has for years been active as an enthusiastic yachtsman, is now a full fledged and sole owner. He has purchased from Thomas Hobron the Dahlia. Mr. Hobron will have the Clytie out tomorrow for a spin. Harry Waterhouse will go to the Locks by railway tomorrow and sail back the Malolo.

Walter G. Smith writes from San Francisco that he wishes he could be here to assist in the celebration of "Admission Day."

It is rumored that J. K. Kaulia is about ready to go to Washington by the Australia next week, as now a fund of \$500 is on hand.

Major Potter of the Foreign Office found San Francisco has changed in seventeen years, but greatly enjoyed his trip to the city.

H. Hackfeld, agents P. M. S. Co. and O. & O. S. S. Co., announce additional sailing dates for their steamers and from this port.

Six Japanese ex-cavalrymen were among yesterday's applicants for enrollment in the Mounted Patrol. They said they were "good men."

Princess Kaiulani has been a very much occupied young woman since her arrival. There has been a steady stream of callers during day and evening.

It was rumored yesterday that certain natives are still making strenuous efforts to have Mr. John M. Kaneauka go as one of the "Commissioners" to Washington.

Nearly all the works of art to be exhibited at the fall exhibition of the Kilohana Art League have been put in place. Some very good work has been done by the members.

The volunteer firm now out of service propose forming a veterans' association. A large number of them were brought together at the funeral of the late Maj. Chas. T. Gulick.

The Kinau will be back from Hilo on Thursday instead of Friday next in order to bring back Senator Pettigrew and ex-Senator Dubois who are to leave for the Volcano today.

H. E. Waity, who with Mrs. Waity

## WHEN THEY SPILL

How it Feels to Fall From a Flying Wheel.

## 30 MILE AN HOUR DIVES

Prominent Riders Relate Experiences—Jones and Martin—Curious Thrills—Trilby—Jackson.

What are the thrills or sensations experienced in a real hard fall from a racing wheel moving at top speed?

This question in one form or another has been put to Geo. Sherrick, Geo. Martin, Allan Jones, John (Manoa) Siva, and Nigel Jackson. All of these time annihilators have made regular grandstand tumbles before audiences at Cyclomere during the season.

Sprinting speed is in the neighborhood of thirty miles an hour. Frequently they are going faster than that when the spill occurs. Now if a man was dashed from a train moving at the rate of a mile in two minutes, what would be the result? Not once in 100 such accidents would there be an escape with less than broken bones. About nine times out of ten the wheelman who leaves his mount in a rush starts again the next day. Cyclomere path is easier than the hard cement tracks of the United States, but the escapes do seem a little short of miraculous.

Sherrick, who assays high in brevity and silence—As I can tell it, you only think of two things. First you wonder if you are ever going to land. Then you wonder if you are hurt much. Looking back to the day I hit the road roller, I thought I was sailing on nothing long enough for a carrier pigeon to fly from San Francisco to Tacoma. When I was able to get on my feet I started to walk right into the lake, but stopped at the edge. I often wonder why the riders are not more seriously injured by their falls.

George Martin, who talks just a little bit more than Fred Damon, who seldom says anything—When I look myself over after I get in the dressing room I try my best to figure how in the world I could hit the earth so hard in so many different places at the same time. The night Manoa and I locked pedals besides the jar to my elbow and wrist, I noticed that both skins, shoulders, knaps, hips, calves and heels were "burked" and that there was a lump on my head. When you are "digging in" you have your mind on your work so much that you can't shift to thinking of the fall till it's all over. The quick stop of a spill makes a buzzing in your ears and you hope to goodness you're not going to break any bones and swell yourself for riding. I recollect wondering when I rose up the other night if Manoa was hurt. He was gritting his teeth when I looked at him just before we came together and I was rather easy and had him.

Allan Jones, the handsome gladiator who talks best with the ladies, but who is always gentle—in a fighting match like Sherrick and I had the other night, you don't hear a single sound but the rush of the air even if 10,000 people are cheering their very best. In the fall you think no man ever tramped so far through space unless shot out of a cannon. It seems an awful long time "Tutu heaven and earth." You say to yourself you are not hurt, but you are fearfully afraid this is the time that means you must quit the business. A short essay on Henry George from the pen of a writer who withheld his own name, was read by Mr. Bowen.

The music for the evening was furnished by Miss Haman and Mr. Raymond Cean. It was voted that the next meeting should be held with Dr. and Mrs. Andrews at the house of Mr. G. P. Castle.

## GREAT STEAM LINER.

May be Two Fast New Local Liners Put On.

The Pacific Mail Steamship Company, should the Hawaiian Islands be annexed to the United States, it says the San Francisco Report, will probably place the China and the Barracouta, both of which vessels have recently been placed under the Hawaiian flag on the run between San Francisco and Honolulu. The China is the fastest steamer that now trades between San Francisco and the Islands and on account of her speed she would be able to secure small subsidies. The two steamers would be able to do the work that now employs a large fleet of sailing vessels, and they might secure control of the sugar carrying trade.

The Pacific Mail also intends to build two 10,000-ton twin-screw steamships for the China-Japan run, with Honolulu as a port of call.

Another plan suggested for local service is to send the Australia to the Central American line and make the China the local boat.

## IN YE OLDEN TIME

A Voyage to Lahaina Made in the Year 1831.

Journal of Rev. Reuben Tinker—A Paper on the Character of the Hawaiian People—Music.

The Cousins held their last monthly meeting at the pleasant and spacious home of Mr. and Mrs. W. A. Bowen on Saturday evening last. An unusually large number were present, and the exercises were of more than ordinary interest.

After a considerable number of meetings with varied programs, it was pleasant to return once more to the order of exercises prepared by the regular Maile Wreath Committee.

On the line of reminiscence, Prof. W. D. Alexander read some extracts from the journal of the Rev. Reuben Tinker, in which was described the incidents of a journey from Honolulu to Lahaina, on a sailing vessel in company with one of the Hawaiian chiefs. From the latter place the trip was continued, by sea and land around to Walluku. This was in the year 1831.

Rev. O. H. Gulick read a paper on "The Virtues of the Races among whom We Dwell." In this it had been his purpose to speak of the better traits of character and disposition of the various peoples who now find a home in these Islands, but owing to the limitation of time he was able in this chapter to present only those traits as seen in the Hawaiian race. The paper was one of interest because it brought out very clearly some of the elements of Hawaiian character which are now often overlooked; and because it was written sympathetically by one who fully understands the native race and can appreciate their better qualities.

A short essay on Henry George from the pen of a writer who withheld his own name, was read by Mr. Bowen.

The music for the evening was furnished by Miss Haman and Mr. Raymond Cean.

It was voted that the next meeting should be held with Dr. and Mrs. Andrews at the house of Mr. G. P. Castle.

## MOCKING BIRDS.

Mr. Pfleger Interested in Birds Sent Down Here.

Will anyone who sees or hears of the mocking birds turned loose at the Queen's Hospital be kind enough to notify this office? This is the suggestion of Ed. Dekum, correspondent of C. F. Pfleger, the Portland gentleman who furnished the birds. Ed. Dekum's father and Mr. Pfleger are the leaders in the introduction of mocking birds and other sweet and harmless singers of the feathered tribe into Oregon. The Portland man has also sent some seeds to Hawaii.

## Consul Presented.

Mr. W. J. Kenny, the new British Acting Consul-General and Commissioner, was presented to Minister Cooper by Thos. Rain Walker yesterday afternoon. The guard was paraded. A very pleasant quarter of an hour was spent in the Foreign Office by the Minister, the new Consul-General and retiring acting representative.

Minister Cooper and Mr. Kenny had met before. They were passengers on a steamer from San Francisco to Honolulu a year ago. Consul-General Kenny will secure a residence here as soon as possible.

## No Lantana.

The land at Nahiku, Maui, that is to be thrown open to settlement has many attractions. Some of it, being mauka forest, has not been explored in years. It is known to fertile and well watered. Mr. Howell, the engineer who did the surveying, reports to Minister King that back in the hills there is no lantana. The dense undergrowth has kept it out.

## The New Bank.

P. C. Jones wrote by the Australia that on account of the delay in the arrival of the up steamer he had up to

the time of the sailing of the down boat but one day for business. He had made some progress in the matter of establishing connections for the bank which he will open here the first of next year. For the new Honolulu financial institution there will be a complete re-arrangement of the offices of the Hawaiian Safe Deposit and Investment company.

## PERCY SMITH.

Polynesian Student and New Zealand Official Here.

Among the arrivals on the O. S. S. Mariposa last night was Mr. S. Percy Smith, Surveyor General of New Zealand. He is here on a short trip and will remain until the Mariposa gets back when he will return to his home. In an interview aboard the steamer last night Mr. Smith said:

"I am here for a pleasure trip and will see as much of your islands as it is possible. They are very interesting to me because for the past thirty years I have studied the history, the people and, to a slight extent, the language of the various islands of the South Pacific. Then I have here friends I value very highly such as Attorney General Smith, Professor Alexander, Dr. Emerson, Mr. Geo. Wilcox and others. The first I met when he was traveling through my country and spent no little time with him. The last two I know through our correspondence on subjects of common interest to us."

"I know quite a little about your place and shall be most glad to know more. I have just come from Samoa where I spent a month."

## Hotel Improvements.

When the Macfarlanes said that they would put the Hawaiian hotel into good shape again they did not speak idly. A visit to the hotel now will show many improvements all over the whole building. New carpets in the hallways, new chairs about on the verandas, prettily tinted hallways and rooms, new electric light effects, new furniture and a multitude of small details that go to make up a first class hotel, can now be found. The service too is a great improvement and on all sides is heard praise for the way improvements have been carried on under the direction of Mr. James.

## IS AN ISLAND BOY

Henry Beckley Makes a Great Football Play.

Wins the Day for Stanford—Praise for Him—Not to be Fooled by a Sharp Trick.

(Examiner, Oct. 31.)

We must annex Hawaii. There are many political and commercial reasons why the island republic should be brought in under the stars and stripes. The halls of Congress have resounded with the "burning eloquence" of statesmen urging the cause of annexation, and time and again has that foremost American, Senator Morgan, raised his voice in support of the movement. But yesterday developed another reason why the Islands should be ours. A Hawaiian football player has been made famous by the name of Henry Beckley, whose brunet complexion harmonizes with the crimson of Stanford, made the freshmen eleven of Berkeley look like 20 cents in Confederate money.

It was in the second half of the annual game between the freshmen classes of the two universities when Beckley created a sensation. Berkeley was experimenting with a trick play. Her half-back, Smith, had started with the ball and then stopped and tried for a long pass to the end. Beckley, who saw through the trick as soon as it was attempted came up with a rush, caught the ball on the fly, and, dodging the university backs, leaped across the field for a touch-down. Anyone who can play football like this Hawaiian ought to be kept in the United States, even if this country has to take Hawaii to get him.

It was a game of ball for freshmen. It was a game of ball for the freshmen classes of the two universities when Beckley created a sensation. Berkeley was experimenting with a trick play. It was a game of ball for the freshmen classes of the two universities when Beckley created a sensation. Berkeley was experimenting with a trick play. Her half-back, Smith, had started with the ball and then stopped and tried for a long pass to the end. Beckley, who saw through the trick as soon as it was attempted came up with a rush, caught the ball on the fly, and, dodging the university backs, leaped across the field for a touch-down. Anyone who can play football like this Hawaiian ought to be kept in the United States, even if this country has to take Hawaii to get him.

It was a game of ball for freshmen.

## IN RAMPART CITY

Frank Grace Writes From Minook Creek Diggings.

### STAKES OUT TWO CLAIMS

Letter of Sept. 18—Last Boat—Food Scarce at Dawson—Life Lost. Cabins—Gus Maurer.

Mrs. John Grace has received a letter from her son Frank, now at Rampart City, Alaska. He wrote to his parents under date of September 18, and said:

"I am very sorry that I could not write to you before this but the fact is no steamers have gone out since we arrived here. There will not be another down besides this one by which I will next June."

"While this place is called Rampart city the stream upon which it is located is the famous Minook creek."

"None of the steamers can reach Dawson city as the river is too low. The best the boats did was to make Fort Yukon, which is about 500 miles from Dawson. The people at Dawson will suffer for food this winter. The captain of one of the steamers is trying to reach Dawson in a small sloop so as to notify the people to leave before it is too late to travel. It is certain that there will be no food for them."

"We expect to see 2,000 people from the Klondike district down here inside of three weeks. The river will be frozen in a few days and then they can come on the ice. It snowed hard here last week, so you can see it is real winter already."

"This is a pretty country and the prospects for mining are excellent. The Minook has the reputation of being one of the very richest of all the gold creeks. I have staked two claims and hope they will pan out well. There are only 300 people in this 'City' just now, but the place is lively."

"We have built a log cabin here in town and leave tomorrow for one of our claims. It will take about a week to put up a cabin on the claim. Then we will be O.K. for the winter. The place where we intend to build our cabin is twelve miles from town, which makes a nice little walk with a pack on your back. As soon as the creek freezes over we can sled our outfit to the claims."

"A young man from Chicago or some eastern city died up in the hills last week from exposure. He and his partner went out to Hoosier creek to stake a claim for themselves. A heavy snow storm came on. They had no blankets and were without matches or wood for a fire. One of them died fighting the weather. The other boy was out of his head two days, but is well now. I have a claim within a mile of where the poor dead fellow is buried."

"The letters that you directed to me at Dawson I cannot get for some months. My address now will be: Rampart City, Minook Creek, Yukon River, Alaska. I will get the answer sometime in the spring, which seems a very long wait. You will not hear from me for a long time—till the first boat in the spring. I hope you are all in the best of health and doing well. Please do not worry about me, as I will be all right. Gus Maurer sends his aloha to papa and Pete Lucas. Give my regards to Charlie Murray and all my friends."

Newspaper articles report rich strikes on Minook creek. All will join the Advertiser in the wish that Frank Grace may find a claim all gold and several yards wide and deep.

**AT THE HOTELS.**  
Long Lists on Registers of Hawaiian and Arlington.

Hawaiian—J. G. English and John T. English, Danville, Ill.; W. A. Gourley, Boston, Mass.; H. Cline Schmidt and P. Johnson, Redding, Cal.; F. P. Plagmann, San Francisco; M. Freiderich, Belgium; A. P. Brayton and Miss Brayton, Oakland, Cal.; Geo. C. Potter, City; G. J. Augur, M. D., Oakland, Cal.; S. B. Kenfeld, San Francisco; Mrs. Pauline Wieser, Germany; H. H. Renton, Kohala, Hawaii; Jas. R. Renton, Hamakua; R. Ivers, Ookala; Mr. and Mrs. Padmore, Mrs. Ponson, Paauilo; Clinton J. Hutchins, New York.

Arlington—Mrs. S. G. C. King, Kealia, Kauai; Hugh Howell, Hana, Maui; W. S. Fairman, wife and boys, Pasaden, Cal.; Mrs. H. Reare, Brayton, Brayton, Boston, Mass.; A. B. Coote, Southampton, England; J. R. Myers, San Francisco; Chas. R. Frazer, Oakland, Cal.; A. D. Shepard, B. Robinson, Pittsfield, Mass.; Mrs. Edward Bellows, San Francisco; Geo. Goodacre, Kauai; H. S. Hagerup, Kohala; W. D. Schmidt, Honomu; A. Lindsay, Chas. E. Kempston, Kohala; A. B. Lindsay, Hamakua.

**TAX APPEAL CASE.**  
Ewa Plantation—Other Matters in the Circuit Court.

J. W. Lelohoa has filed a motion to have his case against Pakaula tried in regular order.

The Hawaiian Commercial and Sugar Company has filed a motion to the Court to make an order closing the time for filing counter-affidavits by the defendant, Claus Spreckels in order that the defendant's motion to dismiss may be decided.

Ewa Plantation Company and Jonathan Shaw, tax assessor, have agreed to have the tax appeal case submitted to the Court on briefs and also that the case may be decided in vacation.

Both Ale and her husband, Anton James, and Lum See have waived jury

trial and have agreed that the suit for ejectment may be tried in vacation.

The attorneys of John K. Sumner have filed a demurrer to the petition of Maria S. Davis for the appointment of a guardian over the person of Sumner. The demurrer sets forth that the petition contains no averment that John K. Sumner is a person for whom Maria Davis has authority by law to appoint a guardian, and further that the Court has no authority to appoint a receiver in the suit of Sumner vs. Cran dall or turn over the estate to a guardian or receiver. The demurrer asks that the petition be dismissed with costs.

Judge Stanley decided yesterday that Neleola must restore to L. Nakoa the land under dispute at Palama.

### MR. CHURCHILL.

The Ex Consul to Samoa in Hawaii for a Visit.

Ex-American Consul Churchill of Apia, Samoa, arrived on the Mariposa last night in company with Mrs. Churchill. It is his present intention to go to Japan but he will not decide positively on this until he receives his mail by the Coptic. In the meantime Mr. and Mrs. Churchill will visit the Volcano and other points on Hawaii. After leaving Japan, they will go direct to Washington.

Mr. Churchill has now on the way a book of Samoan history and Samoan stories which will undoubtedly prove very interesting.

Consul Churchill retired from office at Apia because he was dissatisfied with the position. It has been reported in the States that he would be assigned to another consulate.

### A Consul Dead.

David Thomas, Hawaiian Consul-General at Valparaiso, died on September 13. No successor has yet been named. Mr. Thomas, who is an American merchant was appointed the representative of this country September 13, 1888. His name had been the longest on the Foreign Office consular list.

### DR. LAMONT'S STRONG FINGERS.

"I was afraid you were going to slip through my fingers," said good old Dr. Lamont.

The writer was a boy of about seventeen, then. While a student at school, more than 300 miles from home, I was taken down with pneumonia. I had a tough time, and for two or three weeks my life was despaired of. But youth and good care won the fight, and one bright morning I was ready to go home with my dear father who had come for me. I was weak still, but well and happy clear up to the brim. Oh, what a ride! Oh, what sweet air! Oh, what a glorious world I had got back into! and what a reception from mother and sisters at the familiar house. Oh, life! Oh, health! Oh, *dulce domum!*

Such an illness, if one survives it, only makes the sense of existence and its blessings more keen and delightful. It is good rather than bad. Lucky boy, not to have slipped through the doctor's fingers.

But when a man with most of his days behind him has to write a line like this: "All my life I have suffered more or less from disease"—why that is another and sadder story. It is the odds between an occasional thunder-storm and a sky always covered with clouds.

We quote what he says, reminding the reader that in this matter Mr. William Hodkinson voices the experience of millions. He says: "I always had a bad taste in the mouth, no proper relish for food, and after eating had pain and fullness at the chest."

These sensations are symptoms of acute indigestion. In the stomach there is marked loss of power. The food is neither rolled over as it should be, so that the whole of it in turn may be presented to the digestive fluid, nor is it duly moved on towards the outlet into the bowels. As a result, it ferments and gives off irritating acids and gases, hence the patient complains of pain, weight, distension, acidity, and flatulence in that region. Thence the poisons proceed to every other part of the body, and headache, vertigo, gout, rheumatism, depressed spirits, and a score more of evils follow; among them, possibly, nervous prostration, progressive anaemia, locomotor ataxia, and more or less complete paralysis.

"Frequently," continues Mr. Hodkinson, "I was sick, and as time went on I became very weak and feeble. I consulted one doctor after another and took various medicines but obtained no real or lasting relief from any of them. This describes my general condition until the fortunate day when I read about Mother Seigel's Curative Syrup. I was impressed by the statements others had made concerning it, and proceeded to try it. After taking one bottle I found relief, and was soon entirely free from my old complaint. Since that time (now eight years ago) I have enjoyed good health. Knowing personally of its virtues, I have recommended this remedy to hundreds, and have never heard of its having failed to give relief. But for Mother Seigel's Syrup I should have been in my grave years ago. (Signed) WILLIAM HODKINSON, Hollington, near Uttoxeter, Staffordshire, August 11th, 1893."

Mr. Hodkinson is well known and highly respected. He is a local preacher in the Methodist church, and by employment a quarry master. Had he gone into the grave, as he feared he should, he would have been missed and lamented by the community in which he has long been useful, and will live to be useful, we hope, for years to come.

Now let us repeat our leading thought. Short illness, even though sharp and dangerous, may result in good, rather than harm. But a disease that drags its victim through decades of lingering illness—what shall we say of it? The trouble and suffering it inflicts is beyond estimate, and its name is indigestion and dyspepsia.

And the name of the medicine that cures it Mr. Hodkinson has done you the favor to mention with clearness and emphasis.

## CUTICURA

FOR THE  
HAIR

### LUXURIANT LUSTROUS HAIR

With clean, wholesome Scalp, free from itching, bleeding, and scaly eruptions, produced by warm shampoos with CUTICURA SOAP, and frequent dressings with CUTICURA, greatest of emollients and purest of skin cures. ## New Goods

FOR

## Warm Weather!

While in San Francisco we made extensive purchases of new goods suitable for warm weather and we secured them at low prices. Some of these lines have already arrived and we are offering them at prices which should win your patronage to us if we have not already had it.

### Fancy Swiss, Organdies

AND

### Muslin Dress Goods

From 10 cents to 30 cents per yard. Never sold here before at less than 25 cent above this.

## Equipoise Waists!

The only garment which keeps the form perfect and the health as nature ordained. These waists are now worn by many of the best dressed ladies of Honolulu.

Marseilles spreads, new design, from \$2.50 to \$12.

New linings for organdies just received.

## B. F. Ehlers & Co.

FORT STREET.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL STATION? One generator can furnish power to your Pump, Centrifugals, Elevators, Plows, Railways and Hoists; also, furnish light and power for a radius of 15 to 20 miles.

Electric Power being used, saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Power Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also, attention is given to House and Marine Wiring.

## 14 MEN PERISHED

Natives of Samoa Drift in a Canoe Sixty Days.

Slow Carried Them Out to Sea. Terrible Suffering—Missionary Packet to the Rescue.

(New Zealand Herald).

While on their visit round the Ellice Group, the mission yacht, John Williams, picked up a shipwrecked party of Samoans on the Island of Namouli, the northern-most Island of the Ellice Group. It appears that 22 Samoans left the island of Tutuila in a large boat for two islands some 5 miles to the eastward. They were blown out of their course and drifted before the wind for 60 days until they eventually made the island of Namouli, which is about 90 miles in a direct line from their starting point. Nearly half of the party died in the boat, one was killed in landing, and some died on shore leaving only the eight survivors. They ate their tattered clothes and spread their galls in catch the rain, which fell heavily, and which they stored up in some trade boxes they had on board. The island they eventually reached is inhabited, and the people took all possible care of them; but they were in a very low condition when the steamer picked them up. They have since been returned to their homes.

Notice to Ship Captains.

U. S. Branch Hydrographic Office, San Francisco, Cal.

By communicating with the Branch Hydrographic Office in San Francisco, captains of vessels who will co-operate with the Hydrographic Office by recording the meteorological observations suggested by the office can have forwarded to them at any desired port, and free of expense, the monthly pilot charts of the North Pacific Ocean and the latest information regarding the dangers to navigation in the waters which they frequent.

Mariners are requested to report to the office dangers discovered, or any other information which can be utilized for correcting charts or sailing directions, or in the publication of the pilot charts of the North Pacific.

W. S. HUGHES,  
Lieutenant, United States Navy.

Was in a Wreck.

The business office of this paper has received a letter that was in one of the fatal wrecks on an American railway lately. The enclosure came from the United States postal authorities. It is mentioned that the letter was found in the debris of a smash-up which occurred in Missouri on September 18.

## WHAT AND WHERE.

It is very probable that the Alice Cook will await a cargo of sugar for San Francisco.

The next mail from the Coast will be on the Alameda, due San Francisco on the 18th Inst.

The schooner Norma is being repaired and will be ready to make her first trip to Kona ports this week.

The Hilo and Hamakua coasts were so rough during the past few days that the Kaiman Lehua and Kilauea Hono were unable to do any work.

San Francisco, November 2.—Sailed October 20, passenger Aloha for Honolulu, bound Flores Queen for Kahului October 21, passenger Mary Dodge for Kahului.

On her trip through China Saturday the Hilo carried in her hold as treasure \$1,045,254, of which \$361,585 was in Mexican dollars, \$90,000 silver bullion, and \$2745 gold coin.

The Kaiman brought news that the Annie Johnson had arrived in Hilo with a full cargo of general merchandise and that the Shangtai had left for Fugui Sound in ballast Sunday morning.

The O. S. S. Mariposa, Haywood commander, arrived in port and hauled alongside the Pacific Mail wharf at 12:30 o'clock Wednesday night. Following is the report kindly furnished by Purser Watson. Left Sydney October 20, Apia, November 7, and arrived here as above. Had fine weather all the way to Apia. From Apia had strong winds and very rough weather.

The O. S. S. Australia hauled alongside the Oceanic wharf at about 7:15 a. m. yesterday. Following is Purser McCombe's report. Left San Francisco November 2, 1897, at 2 p. m. with 87 cabin and 49 steerage passengers and 10 bags mail. Experienced the first 40 hours out strong N. W. winds, thence to port very strong trades and rough sea. Arrived at Honolulu November 5, at 8 a. m. Time 6 days 16 hours, 20 minutes. November 5th at 4 p. m. passed a 4-masted ship standing to the N. and W.
